Biomatik Corporate Profile: Integrated Products for Life Sciences

Custom Science. Consistent Quality. Competitive Value.

1. About Biomatik

Founded in 2002, Biomatik provides a comprehensive range of integrated products and custom services designed for life science research and drug discovery. We are a trusted partner to the global scientific community, defined by our commitment to quality, affordability, and personalized support. Our approach is built on delivering high quality integrated products without the premium price tag.

The Biomatik Advantage

- **Proven Global Experience:**

  Proudly served over 20,000 unique researchers worldwide since 2002.

- **Custom Production Output:**

  Delivered 72,000+ custom products, including genes, peptides, proteins, and antibodies.

- **Extensive Ready-to-Ship Catalog:**

  A broad selection of ELISA kits, antibodies, proteins, and biochemicals.

- **Scientific & Customer Trust:**

  Validated by over 6,000 peer-reviewed citations and hundreds of 5-star Google reviews.

- **Deep Technical Partnership:**

  We collaborate at both the R&D and production levels to provide tailored solutions.

- **Global Reach, Local Support:**

  Providing personalized customer support with a network of 35+ global distributors.

Our goal is to provide high-quality research tools and customized solutions to accelerate critical discovery research at affordable prices.

2. Core Product Catalog

Biomatik offers an extensive selection of ready-to-ship reagents and kits designed for high sensitivity and reproducibility.

Product Category	Highlights	Key Features
ELISA Kits	31,000+ Kits	Picogram sensitivity; Human, Mouse, Rat, and more.
Antibodies	22,000+ Antibodies	Scientifically validated for various applications.
Proteins	22,000+ Proteins	High purity and bioactivity.
Biochemicals	200+ Essentials	Core reagents for daily lab work.

3. Integrated Custom Services

We provide custom solutions for unique research projects, ensuring transparency and quality at

every stage.

- **Gene Synthesis:** 100% sequence accuracy guaranteed. Competitive pricing.
- **Peptide Synthesis:** High success rates for long, hydrophobic, and modified peptides.
- **Protein Production:** Expertise and Scalable Capacity in E. coli and Mammalian systems.
- **Antibody Production:** Comprehensive solutions for polyclonal/monoclonal development.
- **Antibody Sequencing:** Professional de novo monoclonal antibody sequencing.

4. Quality Assurance & Service Guarantees

Our commitment to quality is non-negotiable. We operate with a transparency that researchers and distributors can rely on.

- **"No Product, No Charge":** Available for many projects to lower the barrier for research.
- **Expert Technical Support:** Reliable & personal support from our dedicated team.

5. Global Presence

Biomatik collaborates with 35+ global distributors to ensure local support and efficient international shipping. We remain committed to accelerating discovery research at affordable prices through deep technical partnerships at both the R&D and production levels.
